

Pompey Pool League

Pompey Pool League Double Rules.

Doubles will be played as per the normal game and playing rules except that each pair of players take alternate shots at each visit to the table – even at the break or when two shots are granted.

Example:-

When playing and you pot a ball, your team's visit continues. Your partner takes the next shot. You and your partner continue to alternate shots until one player misses. At this point, the other team's visit begins.

Players must alternate shots with their partner. If shots are not played in turn, this will result in a foul being awarded to the opposing team, the normal foul rules will apply.

Talking between Team Members is allowed before the Team has taken control of The Table. Subsequent discussion between Team Members between shots is not permitted except when the colour of balls to be nominated is in question. The Referee will award a Foul Shot should this occur.

For Competitions, breaks are to alternate between players, and alternate between teams (the break shot count as a shot) – e.g. Frame 1: team A, player A. Frame 2: team B, player A. Frame 3: team A, player B. Frame 4: team B, player B. There is no change for any decider, the frames go in turn.
